FCC:I am a consumer who pays for XM radio and I very much oppose HR 4026. I benefit from listening to the traffic and weather channels from my satellite radio in my car. XM is all I listen to. For me to be able to find out traffic and weather information (if your NAB petition succeeds), I would have to turn off my XM, tune to FM or AM, find a station that MAY be updating me at that moment, turn the FM or AM back off, turn my XM back on, etc. That is not very practical! I respectfully urge the FCC to reject the NAB's petition 04-160. Since I pay for these services, they should not be able to dictate what I am permitted to hear. As a consumer, you just cannot get XM's ability to provide the kind of programming and services anywhere else. Thank you.
